***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 3, 2007 has been entered.

***Drawings***

The drawings were received on 12/3/07. These drawings are unacceptable. The drawings fail to include the label "Replacement sheet".

***Specification***

The disclosure is objected to because of the following informalities: The amendments to the specification are objected to because on page 2, the insertions refer to an article which has not previously been cited or described. In the amendment to page 2, reference to a plot of "DU" and "DL" is questioned in that such terms have not been defined. The insertion of a copy of articles into the specification is improper, given the extraneous material, different font, drawings, listing of references used, etc. Applicant should rewrite the articles for proper insertion of such material into the specification. As presently provided, it is hard to follow the information initially provided because the information from the articles is inserted at a later point. Appropriate correction is required.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-2,6-11 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims fail to provide a concrete, tangible result and therefore are directed to non-statutory subject matter.

***Allowable Subject Matter***

Claims 12-17 are allowable over the prior art of record.

Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Amendment***

The declaration under 37 CFR 1.132 filed December 3, 2007 is sufficient to overcome the rejection of claims 1-4,9-17 based upon 35 USC 103 as being unpatentable over Gosche in view of Hutchinson et al.

***Response to Arguments***

Applicant's arguments with respect to claims 1-2,6-11 have been considered but are moot in view of the new ground(s) of rejection.
